### **Strongwell Signs Agent Agreement with N. Bogdanos Marine Bureau Ltd. for Greece**

(Bristol, VA) Strongwell (USA), the world's leading pultruder of fiber reinforced polymer (FRP) composites, is pleased to announce an agreement with N. Bogdanos Marine Bureau Ltd. (Greece) to represent Strongwell in the Marine industry, primarily to Greek Shipowners.

N. Bogdanos Marine Bureau Ltd. is based in Piraeus, home of the largest cluster of shipowners globally. The company has over 60 years of experience in the marine industry and a stellar reputation for high-quality service. Bogdanos Marine's team consists of qualified Naval Architects and Marine Engineers, bringing the ideal expertise and experience to the highly demanding Greek Maritime field.

Strongwell's range of products suited to the marine and shipping industry, including DURAGRID® walkway grating and SAFRAIL™ handrail and ladders, are an ideal match to Bogdanos Marine's current offerings and expertise.

###

Headquartered in Bristol, Virginia, Strongwell is the world's leading pultruder of fiber reinforced polymer composites. The company has pultrusion manufacturing facilities in Bristol, VA, Abingdon, VA, Chatfield, MN, and Apodaca, MX. Strongwell is a financially strong, privately-held company, producing products including structural shapes, grating, handrail, structural building panels, decking systems, composite armor, ladder rail, and many OEM products for its diverse customer base. To learn more about Strongwell, please visit [www.strongwell.com](http://www.strongwell.com).

N. Bogdanos Marine Bureau Ltd. is a renown technical office engaged in the commercial and technical representation of global marine and industrial companies in Greece and Cyprus. The company was established by Nico Bogdanos in Piraeus in 1956, as the first certified technical office in Greece, consisting of marine consultants, surveyors, valuers, appraisers and arbitrators. Combined with the vast knowledge of Greek shipping, N. Bogdanos Marine Bureau Ltd is ideally suited for representing prestigious global marine organizations, which today constitute the core of its business.
