ALL ABOUT SHIP REPAIR & RETROFIT

SHIP REPAIR & RETROFIT

HMPS started as a FABRICATION & QUALITY SERVICE provider taking part in inspection and test of newbuilding ships and offshore facilities in 1998.

With growing demand of marine environmental protection, HMPS has built up it's ability from long before the regulation came into force.

Now HMPS is providing full service in the area of REPAIR and RETROFIT with the product from all makers for all kind of ships.
